

Top 10 Genre by Revenue

Top 10 Genre by Revenue

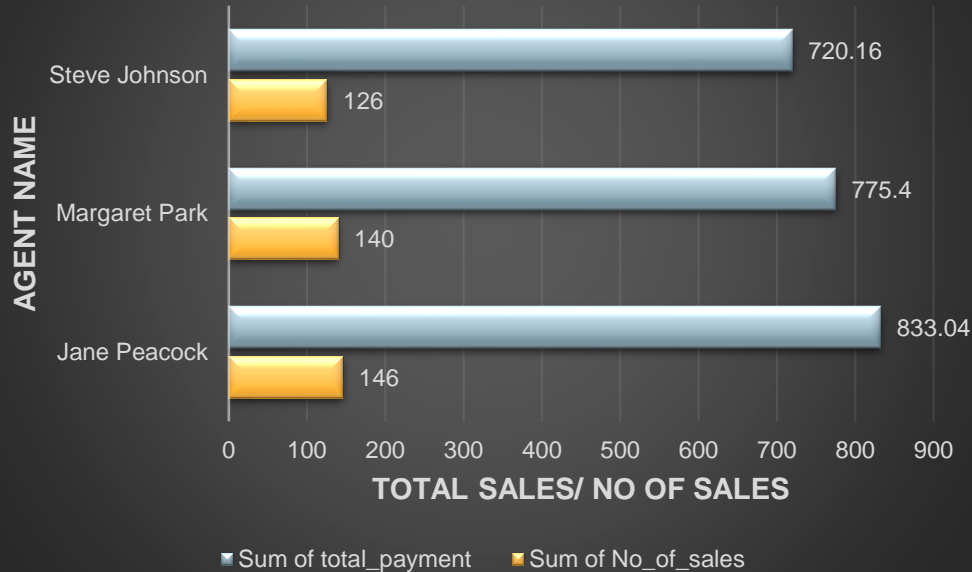

A bar chart shows the top Genres sorted by revenue based on sum of the unit Price * Quantity.

Rock Genre has the most Revenue amongst all the other Genres. So, the store should offer more Rock songs since it is the most popular one

Total sales made by sales agents

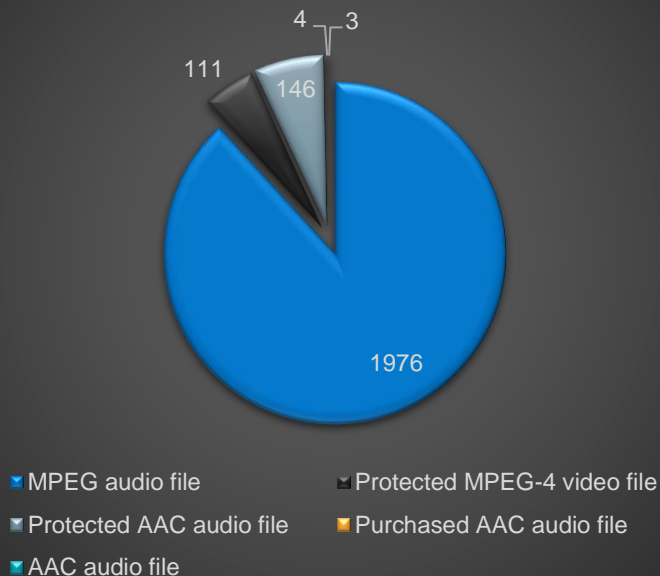

Total sales made by sales agents

A bar chart shows the total sales made by the sales agents and from the chart we can see that Jane has most sales than the other 2 agents.

Preferred music format (Most sold format)

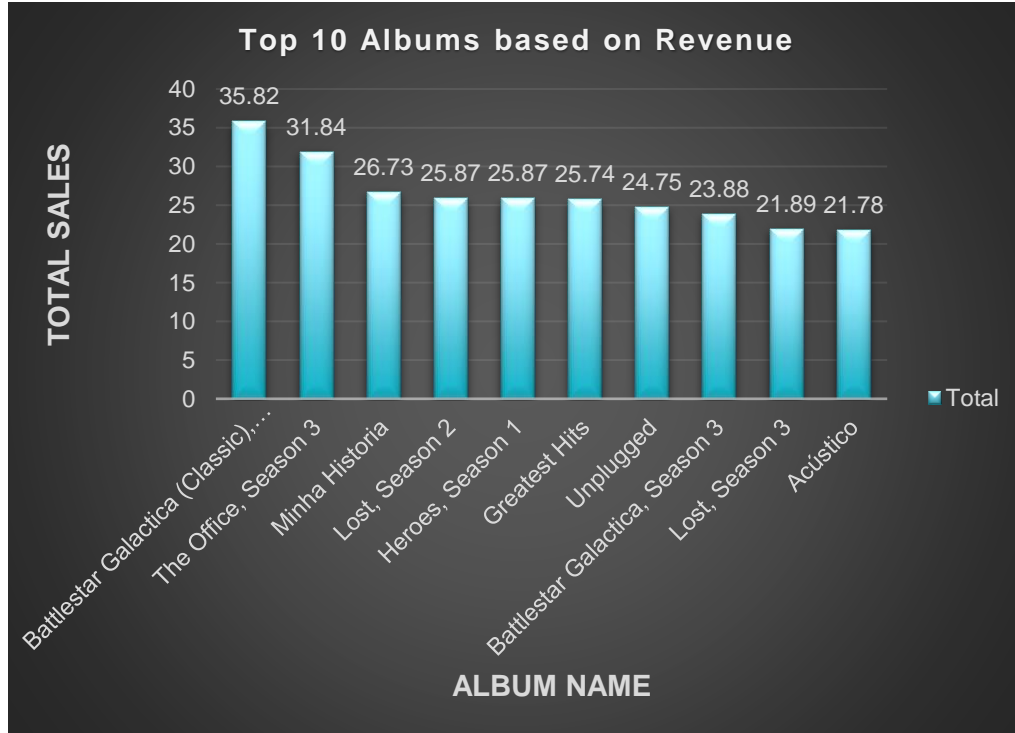

Total sold format (No of Sales)

As we can see from the MPEG format is the most Preferred music format for user to buy.

Although AAC offer better quality than MPEG, the users still prefer it over AAC

Top 10 Albums based on Revenue

A bar chart shows the top Albums sorted by revenue based on sum of the unit Price * Quantity.

Almost all of the top albums sold are tv-show music or OST

So, the store should offer more tv related songs/music since it is the most popular one
